TOTAL INCOME FROM WAGES AND SALARY IN PAST YEAR

During 1997, how much income did you receive from wages, salary, commissions, or tips from all jobs, before deductions for taxes or for anything else?

UNIVERSE: R received income from job

NOTE: Truncated values are applied to the top 2 percent of respondents with valid non-missing responses. The lowest value for the top 2 percent of cases is used as the truncation level (\$14,048 for this variable). Values for all cases at or over that level are averaged. That average is then assigned to each of the top 2 percent of the cases.

PRIMARY VARIABLE

TOTAL INCOME FROM WAGES AND SALARY IN PAST YEAR

During 2002, how much income did you receive from wages, salary, commissions, or tips from all jobs, before deductions for taxes or for anything else?

UNIVERSE: R received income from job

NOTE: Truncated values are applied to the top 2 percent of respondents with valid non-missing responses. The lowest value for the top 2 percent of cases is used as the truncation level (\$ 35,000 for this variable). Values for all cases at or over that level are averaged. That average is then assigned to each of the

top 2 percent of the cases.

PRIMARY VARIABLE

TOTAL INCOME FROM WAGES AND SALARY IN PAST YEAR

During 2003, how much income did you receive from wages, salary, commissions, or tips from all jobs, before deductions for taxes or for anything else?

UNIVERSE: R received income from job

NOTE: Truncated values are applied to the top 2 percent of respondents with valid non-missing responses. The lowest value for the top 2 percent of cases is used as the truncation level (\$ 43,000 for this variable). Values for all cases at or over that level are averaged. That average is then assigned to each of the top 2 percent of the cases.

TOTAL INCOME FROM WAGES AND SALARY IN PAST YEAR

During 2008, how much income did you receive from wages, salary, commissions, or tips from all jobs, before deductions for taxes or for anything else?

UNIVERSE: R received income from job

NOTE: Truncated values are applied to the top 2 percent of respondents with valid non-missing responses. The lowest value for the top 2 percent of cases is used as the truncation level (\$ 84,000 for this variable). Values for all cases at or over that level are averaged. That average is then assigned to each of the top 2 percent of the cases.

TOTAL INCOME FROM WAGES AND SALARY IN PAST YEAR

During 2009, how much income did you receive from wages, salary, commissions, or tips from all jobs, before deductions for taxes or for anything else?

UNIVERSE: R received income from job

NOTE: Truncated values are applied to the top 2 percent of respondents with valid non-missing responses. The lowest value for the top 2 percent of cases is used as the truncation level (\$ 88,000 for this variable). Values for all cases at or over that level are averaged. That average is then assigned to each of the top 2 percent of the cases.

Survey Year: 2017

PRIMARY VARIABLE

TOTAL INCOME FROM WAGES AND SALARY IN PAST YEAR

During 2016, how much income did you receive from wages, salary, commissions, or tips from all jobs, before deductions for taxes or for anything else?

UNIVERSE: R received income from job

NOTE: Truncated values are applied to the top 2 percent of respondents with valid non-missing responses. The lowest value for the top 2 percent of cases is used as the truncation level (\$ 149,000 for this variable). Values for all cases at or over that level are averaged. That average is then assigned to each of the top 2 percent of the cases.

PRIMARY VARIABLE

TOTAL INCOME FROM WAGES AND SALARY IN PAST YEAR

During 2018, how much income did you receive from wages, salary, commissions, or tips from all jobs, before deductions for taxes or for anything else?

UNIVERSE: R received income from job

NOTE: Truncated values are applied to the top 2 percent of respondents with valid non-missing responses. The lowest value for the top 2 percent of cases is used as the truncation level (\$ 178,000 for this variable). Values for all cases at or over that level are averaged. That average is then assigned to each of the top 2 percent of the cases.
